Campbell's "Labels for Education" Program Continues in Elementary

Labels and other proofs of purchase from over one thousand Campbell products are eligible for redemption in the "Labels for Education" program. ISD's Elementary Department is participating again this year. Several educational items have already been acquired through the efforts of the ISD's parents and staff. Elementary Supervising Teacher Laurene Gallimore invites the entire community to join in this ongoing project. Fliers with detailed information concerning what to save are available in the Elementary Department and ISD's Visitor and Information Center.

Staff Development News

This week all staff members should have received a form for Professional Development Days. In the past this was only to be completed by the educational staff. This year every staff member MUST complete the form and return it to Mary Alice Moon, Coordinator of Staff Development. Next year there will be many workshops from which to pick those that best meet individual needs.

Please note that there will be some fun Wellness Activities planned for ALL OF THE STAFF. It is hoped that many will want to take advantage of the opportunity to play and have a good time while trying to improve their body's health. Be sure to check the appropriate box on the registration form to participate in the Wellness Activity.

Geeslin Accepts ASL Assessment Assignment

ASL Instructor David Geeslin has assumed the additional responsibility of developing an ASL skills assessment program for ISD's staff. More information regarding this project will be forthcoming.

BIBI Thought for the Week:

"Research has proven that Deaf children of Deaf parents acquire better English in shorter time than the others -- and their usual approach is bilingual."

Substitutes Sought

Persons interested in serving as substitute teachers may stop by the office of the Assistant Superintendent for Education and fill out an application for a "sub" license. The fee for the license is \$5 (certified check only). When the license is received a copy must be placed on file in the Assistant Superintendent for Education's office. License holders are asked to indicate their preferences in work assignments (which departments they wish to "sub" for). Once on the substitute teacher's list, persons are contacted when an assignment is available.

ISD requires fluency in American Sign Language and two years of college level work (transcript to be submitted with original application). For further information contact Assistant Superintendent for Education secretary Pam Lewis, (317) 924-8402 TTY/Voice.

Indiana Chapter of Registry of Interpreters of the Deaf Convention this Weekend!

Mark your calendars! October 16th (5:15 - 10:00 pm) and October 17th (8:00 am - 5:30 pm) is the Indiana Chapter of Registry of Interpreters for the Deaf (ICRID) biennial conference. Anyone who interprets, aspires to, or uses interpreting services may want to attend. The local RID chapter is hosting the conference here in Indianapolis at the beautiful Eli Lilly Corporate Center.

Friday evening Janet Bailey, President of the National RID, and Jerome Freeman, Division Deputy Director of the Deaf and Hard of Hearing Section, Division of Aging and Rehabilitative Services, Indiana Family and Social Services Administration, will speak on interpreter evaluation systems. Since both NAD members and RID members have a vested interest in the interpreter evaluation process **ICRID has invited the Deaf community to attend Friday evening's session free of charge.** ASL interpretation will be provided for both speakers in order to encourage healthy, informative dialogue.

Saturday's program includes three concurrent workshops. Superintendent Laird will present "*Interpreting in an Empowered Environment*"; Wendy Laird, Associate Professor from Vincennes University, will present "*The Difference Between ASL Discourse and English Discourse*", and Marvin Marshall, RSC, will present "*The Scene of the Interpreter*".

Car pooling is encouraged since parking is limited at the facility. More information is available from Donna Boucher, ISD's Coordinator of Interpreting Services, (317) 924-4374, extension 128.

The library is planning to begin building a collection of videotaped ASL stories in cooperation with ISD's ASL instructors. The project is scheduled to start within the next few weeks. Educational staff will be informed of the procedure for requesting stories from specific books in the library collection.

Until the Main Library gets another bulletin board, all fliers and announcements the library receives will be posted in the brown cases.

Please remember to check-out *all* materials, including magazines and newspapers, even when borrowing for only a few minutes.

Reading in Indianapolis, published twice a month by the Indianapolis-Marion County Public Library, is available in ISD's Main Library. The publication lists upcoming programs and events in the city's library system along with timely information concerning the system's many services.

Come into the library and see what's happening!

Deaf Studies Update

The purpose of Deaf Studies at ISD is to provide an organized and inclusive program through which Deaf students can gain the knowledge and skills necessary to develop a positive self concept and for the continued transmission of Deaf culture and heritage. This school year Deaf Studies has been implemented at several grade levels and eventually will expand to every level with infusion into all courses.

In the Elementary Department teachers Ted Myhre and Guy Vollmar teach Deaf Studies to the fifth graders once a week.

Teacher Edna Olsen has Deaf Studies classes in Middle School for eighth graders, who also study ASL with ISD's American Sign Language Instructors.

High School students are taking these same classes, with Leithia Whited teaching Deaf Studies.

Deaf Studies Coordinator Pamela Haring has been meeting with the teachers to discuss, plan, and share program ideas. They are working with a curriculum from Kendall Demonstration Elementary School and ideas from California School for the Deaf in Fremont. They are adding their own ideas and activities with the goal of developing a program to meet the needs of ISD's students. Haring explained, "It is imperative for all Deaf students to understand their own language, culture, and heritage. We are truly excited to begin offering this course to our students!"

Reynolds and Coffey to serve as Contacts

ISD's BIBI Committee recently appointed High School Teacher David Reynolds and Orientation and Transition Coordinator Bill Coffey to serve as contact persons for the committee. The two have met with Superintendent Eddy Laird to work on the concept of developing a BIBI networking system on campus. More information coming soon.
